What's New in the?

BEeN GRUB is an universal operating system installer for Windows. The application installs any operating system within your Windows computer. The application works for all versions of Windows. It's the first program to let you install Windows 7, Vista, XP, ME, 2000 and NT as an operating system. You can install it on any of your disks and it will automatically detect the drive letter and partition number. For more information go to [or visit our Facebook page](#). To get a GRUB-installer for your harddisk, you can write to us, if you have a problem with the application. BEeN GRUBer is a free Windows application for installing any version of Windows (2000, XP, Vista, 7) as an Operating System on a drive in your computer. There are two ways to install GRUB, on the Master Boot Record or on the first partition, so you can choose which one you want. There are many advantages to installing GRUB, you can choose which OS you want to boot on boot and it also will find the Windows bootloader if it's already installed. The free BEeN GRUBer is a very good solution if you want to install Windows on a drive and you don't want to loose your Windows 7/Vista/XP and want to keep your bootloader. The program needs a C: drive. If you already have a Windows 7 or Vista installed, there is no need to create a new partition for it, and the installation will update the boot loader. You don't need a repair DVD for Windows, you need a Windows installation disc. This is an universal Windows 7/Vista/XP/ME/2000 installer, so you can also install Windows on a different drive and make it the master, so you can boot any drive with any operating system. BEeN GRUBer is a free Windows application for installing any version of Windows (2000, XP, Vista, 7) as an Operating System on a drive in your computer. There are two ways to install

GRUB, on the Master Boot Record or on the first partition, so you can choose which one you want.
