Menu Uninstaller Ultra

Menu Uninstaller Ultra Key Features: Built-in context menu integration. Support for bulk deletion of files. Ability to trigger uninstallations based on the user's computer activity. Ability to set system restore points for uninstallations. Set custom icon to the program. Supports Windows Vista and above. Menu Uninstaller Ultra System Requirements: Operating System: Microsoft Windows XP, 7, 8, 8.1. RAM: 1 GB Hard Disk Space: 150 MB. Menu Uninstaller Ultra Main Screen: The main window of Menu Uninstaller Ultra has a clear and intuitive user interface, which is appropriate for a novice user. The program offers the following actions: "Uninstall" - the action is displayed when you right-click the application's icon and you click the word "Uninstall" on the popup menu. "Uninstall with comments" - the action is available when you press the key combination Alt+Delete. "Uninstall all from all users" - when you press the key combination Ctrl+Shift+Delete, the program offers you to delete all the software that has been added by other users to the computer. "Revert system to state before program was installed" - this action is available when you run the program and press the key combination Ctrl+Alt+Delete. "Revert system to state when program was installed" - this action is available when you run the program and press the key combination F10+Delete. "Revert to the current state" - the action is displayed when you press the key combination F11 or select the "Revert to system state" option from the context menu. "Remove" - the action is available when you right-click on the program's icon and click the word "Remove" on the popup menu. "Remove all updates for this program" - the action is available when you select the "Remove all updates for this program" option on the "Update history" page. "Uninstall updates for this program" - the action is available when you select the "Uninstall updates for this program" option on the "Update history" page.

What's New in the?

- Small and easy to use - Works with several filetypes - Configurable options - Protects you from potential malicious software - Easy to use Menu Uninstaller Ultra Uninstaller is an application built specifically for easing the task of uninstalling applications from the computer. The tool offers support for the context menu integration, so you can select the program to be process... Menu Uninstaller Ultra Uninstaller is an application built specifically for easing the task of uninstalling applications from the computer. The tool offers support for the context menu integration, so you can select the program to be processed with a simple right-click on the program's icon. The user interface is straightforward and gives you the possibility to set up the dedicated parameters following the step-by-step approach. Menu Uninstaller Ultra allows you to rate the software that you want to uninstall and specify the reason that you want to uninstall the tool. Additionally, if you don't want to provide information about the uninstalling process, you can skip this step and proceed with removing the selected program from your computer. At the end of the task, Menu Uninstaller Ultra displays a notification message about the successful or failed operation. On the downside, the application is not able to delete registry items left by other utilities during the installation process, so you need to manually delete them or use other dedicated tools. Since it doesn't require much computer knowledge to work with this tool, even rookies can configure the settings with minimum effort. During our testing we have noticed that Menu Uninstaller Ultra carries out a task quickly, and no errors showed up throughout the entire process. It is friendly with system resources, so the overall performance of the computer is not hampered. To sum things up, Menu Uninstaller Ultra seems to be the right choice in case you are looking for an easy-to-use uninstaller. Menu Uninstaller Ultra Uninstaller is an application built specifically for easing the task of uninstalling applications from the computer. The tool offers support for the context menu integration, so you can select the program to be process... Approved Uninstaller Pro is a lightweight application built specifically for easing the task of uninstalling programs from the computer. The program offers support for context menu integration, thus you can select the file to be processed wit... Approved Uninstaller Pro is a

lightweight application built specifically
