The Prophecy promises that a Great Evil will be released, bringing death to all who stand in its way. An army of Orc-like creatures, the Scepter, is terrorizing the innocent. The Garre and the Elves are the two forces prepared to stop the evil. They agree to cooperate for the ultimate good. The gamer is cast in the role of a character called a Garre. The player assumes the role of a Garre, a character in the game, but isn't necessarily the player. The Garre is on a quest to fight the evil and to bring the peace back to the land. The events in The Unexpected Quest Prologue are the events that led up to the main game. These events are not spoilers. The player interacts with NPCs, objects, and other characters in a city called Biccioli. There are two main characters to interact with; Gavato and Roca. The two different endings are determined by the decisions the player makes. Choose whether to bring about good for the people of Biccioli or not.

About Game Designer Lucia Quaranta
Game Designer Lucia Quaranta is a graphic designer, freelancer and part time game developer who grew up in Italy. She has many years of experience in website and web design and currently works as a web designer and web developer. She loves to play board games, and write stories. She's a mother of two children and works part time in order to earn money to support her family. In her free time, she

loves to go on trips to the beach to surf, play with her dogs and unwind. When she's not working she spends her time playing board games and writing stories. She's a mother of two children and works part time in order to earn money to support her family. Why would I want to play as a Garre? We've felt that the players of "Dungeon Endless" didn't get enough interaction with the main characters.

===== You are a male police officer in Birmingham, England. On your way to work, you stumble upon a bomb heist, but what you find is a lot more than that... there are three girls, tied up, and in need of rescuing. It's up to you to do so, in order to bring all the three girls back home safely – in full HD 1080p quality. In order to find them, you need to use your instinct and the uncanny skill that only you have to solve the many puzzles the girls leave around the house. There are new objects, new characters, and a new story to tell. And as always there are some bonuses that will give you some tips and tricks on how to succeed in your new adventure. For the first time in the series you can collect the girls back home, each in their own different outfit and unlock the full soundtrack from the game. And when you reach the highest score, maybe you will even get a new Achievement! This DLC was funded by the supporters on our patreon platform. Thank you for your support! How to play "Flexibility and Girls Soundtrack":

===== Just press START and get right into it!

----- Main game characters: - Erin: A young woman with a shy personality. She has the habit of hiding things, but that doesn't prevent her to be smart. With this brunette, it is difficult to tell where she stands. - Taylor: She is a smart and talented girl. Well, except for maths. She also has a lot of energy to accomplish things, but maybe that's the reason why she's so tired after a long day at work. - Rosie: She is a very friendly girl. Although she's not very talkative, she is able to sympathize with other people. Although she uses her hands to express things, she has very important info in her mind, which is helpful. Your task: - Run around and interact with objects in order to make those three girls free. - In this first chapter of the game, you will only be able to select one of the girls and go to the bathroom. When all three girls are released, you will be able to choose which girl you want to take to the bathroom next. - At the time of this writing, there is no way to choose the character before a girl is released. - When you use the cop car, you are

----- Excerpts
from Marqex's Log are always the best way to start the day. Or
night. Whatever is in the sky around you, I imagine she learned
to do her backgammon this way. Been the same for the last
several weeks, that's for sure. Hmm, well, sun's up. It might be
time to wake. Sunrise woke me. Each morning, I consider myself
lucky. That's one of my rituals, a short one of exercise, a half
hour walk while listening to music, no pods to receive. Not even
when the storms came. I can still hear her, or at least feel her
presence, not in my pod as usual. I look around me, noticing
she's not on the terrace as usual. I get up. A noise in my condo.
Did she somehow get in? I've tried everything, reinforced doors,
toxic chemical sealant and all. So, yeah, kept her out. It's a
good thing too because if she's in there, I might smash her, go
crazy, kill her. So far, she was mostly harmless, but then, stay
away from toxic shockers, My! When I unlocked my pod door, I
saw her crouched inside, barely visible through the glass. I
nearly didn't see her, she was like a spirit. Ghost of a previous
storm, that rolled into my pod and something clicked then her

image appeared. I almost thought I dreamed it, as I'd gotten in hardly dressed. Looked like a Valeria - I checked my face in the mirror, looking at her, she seemed real. That she, isn't. But Valeria's still her. She hangs around the port entrance, every day, waiting for me
