What happens when you get a magical power. That power is the power of “Elden”; an ancient power that has been waiting for a new bearer. You obtain this power in the Lands Between and it allows you to obtain a variety of rare goods and money. But it’s up to you. What will you choose? • To achieve great things. • To obtain the ultimate power. • To show off your new-found strength. • To be the one to make a great change. Over your journey, the player will come into contact with a variety of characters such as a Goddess who controls time, a young girl who hides a secret, a wise man who has existed since time immemorial, a thief who steals and an adventurer. You must fight in order to find the ultimate power. And you will earn the title of an “Elden Lord”. Get ready for a grand adventure as you form and grow the first faction on your journey. #eldenguild. Each guild is represented by a character whom you can customize with unique skills, customization items, hair styles, tattoos, and clothing. Choose your armor and weapons that can be added to your character. Create a killer synergy between your guild members to quickly build up your character skills and grow into a powerful faction. “#eldenguild – The Formation of Faction” Create a full guild by collecting and growing a variety of items including herbs, armor, weapons, and accessories. Guild items and deeds are necessary for higher rank formations and they can be purchased from trainers or earned in combat. Choose a formation that suits your guild. Although each formation has it’s unique benefits, there are also harmful ones that are easily avoided if you take the time to take in. Guilds with high rank formations are popular among the players due to their increased number of guild members. A high rank faction is the first step of growing your guild. At the end of a mission, your position becomes known to the other guilds. Grow your rank by gathering a large amount of guild items and deeds. “#eldenguild – The Growth of Faction” Team up with members from other guilds to complete in-game missions. You can obtain guild items and deeds from missions. The more missions you complete, the more items you’ll gather. You can raise rank

From the Riseseestyle 2012 (Light spoilers for Risky Business ahead!)

Destructoid 2012. This year, so far, has been way more interesting than those on the other side of the World even realized. As I said last week, we featured a few games and we've gotten a few more games since then. On top of that, there have been a few giveaways of big announcements, both large and small. This week, we're going to highlight some of the biggest games on the way, both from established studios and always developing ones. Cave Story style surely fits this as the game is coming out somewhere on the Nintendo side, though there are no details released on the eShop yet. I'm sure we'll have a look at at least a few of these in the near future. However, it's been a heck of a week and I may not have as much to say on each game. So, I may only be able to focus on the big stuff.

First up, I have to stress

Elden Ring [Win/Mac]

Daniel Beason The basic story is same in every game: you're a teenager from some quaint little village who decides to test their newfound freedom by going on a pilgrimage to the nearby settlement of some previously-unheard-of town. From the time you reach the aforementioned settlement, the plot is a complete and utter mess of inconsistencies and ridiculous dialogue. I can't even begin to explain the plot for this game without spoilers. Even a basic summary of this game would risk starting a flame war, so please, I implore you: do not read any further unless you're interested in finding out for yourself. The first thing I want to address is the combat. I know what some of you reading this are thinking: "Well, that's just the cost of building a game like this. Combat must be difficult and the more difficult the better!" It's easy to see why you'd think that, considering how similar the combat is to that of Dark Souls or Bloodborne. Bodies are bullet-spongy and you'll most likely die even if you have low health. However, there are two key differences. For starters, you level up your attributes by using XP, or "Kill XP", and not "Kill Experience". This is a huge change. The second big difference? You fight in the world, which makes combat extremely different. You can attack enemies that are from a distance, flank them and catch them off guard, and you can jump between the two at any time. Enemies have their own attacks (like double jumping and strafing) and they get scared/elated when you damage them. The combat is good, but the combat system could have been vastly improved with some AI assistance. Sometimes enemies will appear behind you while you're fighting another. Other times, you'll be fighting an enemy, and then another enemy will jump over your back and use you as cover. As far as I can tell, there is no way to shoot or attack them before this occurs. You do not get any special animations for these kind of situations. Instead, you'll just die because you're bad at controlling your character. The world is also incredibly beautiful, and this is something that a lot of RPGs bff6bb2d33

While the game's story is fully fleshed out, the game does fall short in a few areas. I can't speak to the rest of the characters in the game, because I didn't get the chance to play as those characters. However, the one character that I did interact with, the main character Quiet, felt fleshed out and could stand on her own as a character. While the story did have some story holes and I did find myself at a bit of a loss for what to do, the Metal Gear universe that Kojima Productions has established in the Metal Gear Solid franchise is interesting enough that I found myself looking forward to the next game in the series. Whether that turns out to be true or not is yet to be seen, but for now, I can say that this is
