I want to know how to select an item from a list of options (for example, a list of websites to select from). I am not sure if I need to use a ListBox or a ComboBox, or maybe a TreeView, or a CheckBoxLayout etc.. I only want to select a value and not change anything else on my form. A: ListBox: ListBox.Items.SelectedIndex = 0; ComboBox: ComboBox.Items.Add("Foo"); ComboBox.Items.Add("Bar"); ComboBox.SelectedIndex = 1; A: I think you need a combo box. the 5th Avenue Project Mid-rise development is one of the fastest growing sectors of New York City real estate today. From Southampton to Brooklyn, we're seeing more and more ambitious and highly creative mid-rise projects. The 5th Avenue Project, a mixed-use project by Extell Development Company, is a perfect example of why this is so attractive to developers. Drawing its inspiration from the famous intersection of Fifth Avenue and Central Park in Manhattan, the mid-rise 5th Avenue Project includes a two-story retail space, a 20-story apartment building and a 15-story residential building. All three buildings are connected by sky bridges and an outdoor space that wraps around the entire building and provides c6a93da74d
