

Happy Birthday Wishes [BETTER]

4 days ago - 8. May you find the greatest of joys and eternal bliss. You are a gift yourself and you deserve the very best. Happy birthday. We women live in a world full of symbols that reflect our strength and our weakness. By giving meaning to symbols, we can realize how great our strength and our weakness are. If we do not see our strengths and our weaknesses, we can never define them, let alone realize them. We want advice and guidance to understand how we can reach our potential, not to give us a false idea of who we are.
