You can get the latest (2019) version for the States/Territories from the Downloads page of ThisWorkbook.cnx. We've been using it for about a year and a half with no problems except we are missing a couple of features that

Customize the user interface
For example, we set the map
view to show all routes and
then export routes to and
from the user's home port or
any port in the map. The
chart colours do not match,
making it hard to see the
routes. Feb 20, 2017 The
