"Sit back and turn up the volume, this one's gonna scare you to death." DiS is an ordinary little guy, but he really, really likes horror movies. After watching a TV report about a murder investigation at the house he and his girlfriend used to live in, he claims that it has a truly unbelievable ending and is in a weird state. He also says that he will seek vengeance, when he gets his hands on that murderer. DiS and his girlfriend went on a summer vacation to a secluded house, a house that they both said "wasn't that scary". Since he is a strange guy, DiS decided to visit the same house after the friends split up, instead of only during summer

vacations. [Chapter 4] You are a detective, Sui. You're trying to find out what happened to DiS and your best friend DiS during your visit to that house, and why people are still bothered about the death of a girl there. [Story] Chapter 1: DiS (Dystopia) and Sui (Sony) are two friends. One day, they decide to visit the same house DiS used to live in, they called that place 'the attic'. They are both dissatisfied with their jobs, and they don't have friends. When they visit the attic, they encounter some disturbing things. DiS, the quietest one, speaks in the past tense, but there is a creepy, strange atmosphere in the place. And there are strange and weird things, that none of them ever seen before. [Gameplay] DiS and Sui are sitting on a couch, and they see two transparent people in the attic. After watching them for some time, DiS asks to stay there for a while, and he invites Sui to his place. While Sui is staying with DiS, they hear a child's voice, and then music. They also hear a door banging, and then the door creaking. They then start to look around the attic. DiS is cautious, but Sui isn't. You can manipulate the space by

using your controls. When you switch to first person, you will see DiS in real life. You can also use the gamepad to hide where you are in the attic, and you can even find some stuff that you can climb on. characters:DiS - The main character, DiS is a police girl who has fallen down in a traumatic incident involving a detective that had been harassing her.

She hides in her mother's attic and waits for death.DiS' mother has a twin sister. If her mother receives proof of DiS' death she will raise her sister as her own, giving DiS' body to her twin sister. The sister will have a strong resemblance to DiS.

Because of this DiS' mother, known as Mrs. P, may be trying to protect herself by having her daughter killed so she won't be raised by her sister and reveal her identity.DiS and Sui's story intersect around Mrs. P. Mrs. P believes that DiS is Sui's twin sister. DiS and Sui's mother did not have an easy life growing up, often being the scapegoat for people around them. Sui was raised by her mother's mother because Mrs. P took her in. When Sui was five, Mrs. P died but left a will stating Sui would become Mrs. P when Sui turned 16 years old. Sui only just learned about her mother's will. Sui said her mother made her promise to raise DiS because DiS and Sui would have the same powers as their mother. Sui wants to find her mother's

murderers. Sui - Detective Suzuko Sui is investigating a serial killer who

What's new in Disillusions Manga Horror:

Film Description When a group of misfits find themselves on an abandoned island, they encounter a few problems. First, there are a bunch of insanely mutated creatures trying to murder them on sight. Second, their only hope of leaving is riding a river of lava to the mainland. Third, there are a group of psychopathic apparitions that are actually other people's spirits still inhabiting their bodies. Fourth, there's a warped young woman with a mask over her face and an assortment of deadly weapons. Hopefully the heroes can defeat her and reunite with the other survivors before they learn that they are all haunted by evil... It's kind of ironic considering how many themes this article covers, but I'll start with something fairly universal, the ruined body. This is a fairly common setting that produces a lot of thought-provoking stories. It's easy to imagine lost souls clinging to a rotted body, still haunted by the memories of their life to the point that they're essentially mindless husks. People often come across other spirits while camping near the desert, trying to find a way off of the Earth or some sort of shelter. They call this place the Abyss, and they're right, there really is a bottomless pit of blackness. The fact that these spirits are so menacing, that they could even turn on the characters, is exactly what makes this setting so appealing. This trope is about dread, and people aren't

often happy when they're being haunted, so the effect is amplified. This effect is more than just the characters gradually being confronted with the puzzle of how these spirits can exist in places on Earth, but also how they can survive with their bodies. They don't have their own personal spirit, and so their existence must be more direct than that. Even if they could cast spells, they're just like us, they need to breathe, eat, and they have messed up genetics. In a way, they are tortured embodiments, but they're also the victims of a much more sinister force. The main character fights this with the great weapon of part of the story, a power source that keeps the ghosts there. There are a couple of these that got created in the old Yugioh games as well, such as Pit Fiend and King Ghidorah. The former's a unique situation that had an interesting evolution over time. If you recall, the Hyperdimensional Dracos release negates the existence of the domain in an attempt to hide from the Otherworlders. As the effect

DISILLUSION MANGA HORROR GAMEPLAY:

There are, as usual, large numbers of enemies and great amounts of gore in Disillusions Manga Horror. The game plays like a cross between the likes of Contra and Pokemon. Although, you don't have access to all of the Pokemon, Disillusions Manga Horror has strong similarities with Pokémon.

From the opening scene you are intranetted onto the action via second screen. That is, you'll see a mini-game on the TV while you watch the main game on the LCD. Essentially, the game continues to run on your TV, while the game navigation continues on the LCD, but it turns out that you go to the in-game screen to 'escape the TV emulator'
